

Impartiality Declaration

To ensure impartiality and objectivity in carrying out activities related to MRV verification, Korean Register and all staff engaged in the verification services shall comply with the 'Procedure for Control of Impartiality(MRVP-09)' including the following:

[At the policy level]

- Taking action to respond to any threats to its impartiality arising from the actions of other parts or persons outside, subcontractors and maintaining a professional environment and culture in the organization that supports a behavior of all personnel which is consistent with impartiality.

[At the organization level]

- Having the impartiality committee separated from the management operation of KR and established at the highest level within the organization to safeguard the KR's impartiality in its verification functions.

[At the operational level]

- All activities related to MRV verification service shall be avoided of conflict of interests and be performed in sincere, objective and impartial manner.
- KR shall treat customers fairly without discrimination in providing the MRV verification service and endeavor to do its best to earn the trust of all stakeholders.
- KR shall not be affected by internal/external intervention in carrying out the MRV verification service and the verification conclusion shall be approved based on the background information attesting to the conformity acquired by KR. Furthermore, the authority for decision on MRV verification shall be exercised by independent persons, and there shall not be any interference on such decision.
